Part numbers marked with an asterisk (*) are contained in Repair Kit #300462.

NOTE: Removing or adjusting the set screw that is sealed into the wall of the threaded cylinder body voids warranty. For replacement of the cylinder body, contact Technical Services, Industrial Division.

Refer to any operating instructions included with this product for detailed information about operation, testing, disassembly, reassembly, and preventive maintenance.

Items found in this parts list have been carefully tested and selected. **Therefore: Use only genuine Hytec replacement parts!**

Additional questions can be directed to our Technical Services Department.
