

## PRODUCT BULLETIN

Title: Posi Lock Hydraulic Vises – Catalog Error  
Product Line: Power Team  
Document #: PMB2302  
Date: January 25, 2023

**Product Affected:** Posi Lock Hydraulic Vises

**Distribution:** Channel Partners, Sales, Customer Service and Tech. Support

**Description:** As a result of the Posi Lock acquisition, we needed to make some changes to the part numbering of the hydraulic vises. These changes were not in the most recent versions Power Team catalogs. Material number PTPHV859SPX no longer comes with a PA6 pump but does come with hydraulic accessories such as a gauge, a hose, and couplers. If a PA6 is needed with the hydraulic vise, please order PTPHV859ASPX. An updated list of items is shown in the table below.

**Effective Date:** These changes are effective immediately, and modifications to the relevant documents will be made when they are updated next.

**Contact:** For questions regarding the changes, please contact Derek Dreier (derek.dreier@spxflow.com)

Best Regards,
